Naturale 12328

Testa di Moro 9269

Nero 10001

Zafferano 13645

Pistacchio 13260

La nostra ecopelle rappresenta una scelta che coniuga innovazione e responsabilità: una superficie elegante che risponde alle esigenze estetiche contemporanee senza rinunciare ai valori della sostenibilità. Realizzata interamente in PVC su base cotone, questa ecopelle si distingue non solo per la sua elevata resistenza, ma anche per la capacità di mantenere la sua integrità nel tempo. A differenza di molte ecopelli comuni, soggette a sfogliarsi e a perdere integrità con l'uso, questa superficie resta compatta, stabile e priva di segni visibili di usura, conservando intatto il suo aspetto originario anche dopo un utilizzo prolungato.

Our eco-leather represents a choice that combines innovation and responsibility: an elegant surface that meets contemporary aesthetic demands without compromising sustainability values. Made entirely of PVC with a cotton backing, this eco-leather stands out not only for its high durability but also for its ability to maintain integrity over time. Unlike many common eco-leathers that tend to peel and lose their integrity with use, this material remains compact, stable, and free from visible signs of wear, preserving its original appearance even after prolonged use.
